MEMORANDUM

DATE: February 12, 1987

TO: John Osborn, FIT-RPO, USEPA, Region X

THRU: David Buecker, FIT-OM, E&E, Seattle *DB*

FROM: Thomas Colligan, E&E, Seattle *TMT*

SUBJ: Preliminary Assessment QA Review for
General Plastic Manufacturing
3481 South 35th
Tacoma, WA 98409

REF: FT1310, TDD F10-8701-07, F102009-QAQ

CC: Deborah Flood, EPA, Region X
Thomas Tobin, E&E, Seattle

Priority Assessment: No Further Action

Reason:

No hazardous substances are thought to exist on site from the pre-existing General Plastics Manufacturing Plant. The company (Nalley Foods) that acquired the site in 1981 stated that there were no pre-existing underground tanks, only above-ground tanks. Chemical testing was done on soils and interior walls, etc. Everything tested clean, as Nalley was concerned with the possibility of acquiring a contaminated site. They have the records of the testing available in their office.

Person Contacted at Nalley Foods: Dick Macatee, 383-1621
